SPIDER LIGHT KIT

PART NUMBER: SSP-ACC-LIGHT-KIT

FEATURES AND BENEFITS

Most security panels are installed in poorly lit locations, making it very difficult for technicians to work on them. Panels are also often placed in obscure, hard-to-reach locations. It can be nearly impossible to read text descriptions on PCB's and Wire Terminals.

But if you opened up a panel and it lit up nice and bright: Would it help?

This Spider Light Kit makes a HUGE difference!

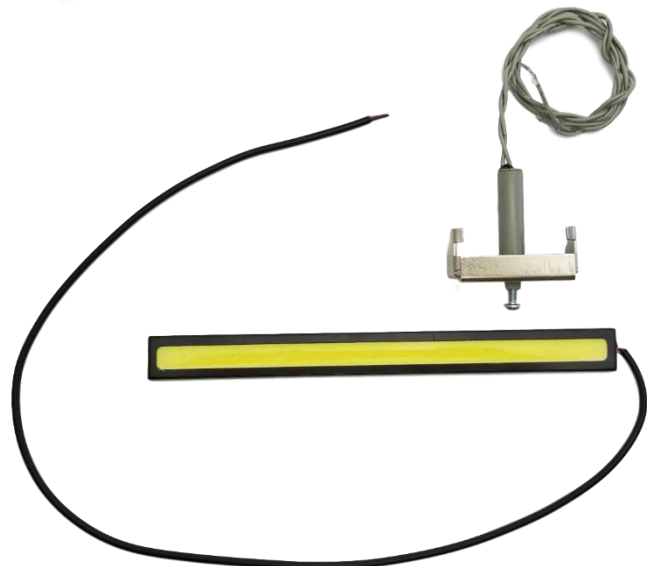

- Increase visibility in any environment
- LED becomes super-white when lit
- Push-on door switch
- Super quick installation
- Operates on standard 12 Volts DC
- Compatible with any enclosure or system

SPECIFICATIONS

The Spider Light Kit installs in just minutes. And once equipped, your projects will have a WOW FACTOR that will make them stand out!

Key Features:

- The LED Bar is mounted securely with pre-installed adhesive foam.
- The included bracketed switch pushes into place. (detach switch from bracket for angled sidewall installations)
- The switch will activate the light whenever the door opens.
- Runs on standard 12VDC, and draws only 180mA (when active).
- Expedite Installations & Service times – Minimize wiring issues.
- LED Bar: 7.00" L x .625" W x .188" D
- Total Length (including wires): 25.75"
- 4 pieces included: (1) LED Light Bar, (1) Panel Switch & (2) Screws.
